

Warmbier Test Equipment

Model 15 - ESD Glove Probe

Probe used to take accurate resistance measurements of ESD Gloves.

The 15 Glove probe is designed to evaluate ESD gloves according to ANSI ESD20.20. The probe's weight ensures excellent contact on ESD glove measurements. The rugged clamp is fitted with conductive contact points or resistance meter cable. The connection point is a 4mm banana plug socket.

The Model 15 Glove Probe testing. Resistance meter is not included.

Specifications:

Material: Stainless Steel;
Contact: 4mm Banana Jack Sockets

Part Numbers:

7220.15 ESD Glove Probe

Features

- Ensures Excellent Contact During Evaluations of ESD Gloves
- Rugged Metal Probe
- 4mm Banana Plug Socket Connection
- For Use With Resistance Meters

Applications:

The 15 probe tests ESD gloves for compliance and is an integral part of a complete ESD program.
