

Battery Operated Ionizing Air Gun

Model 6500

*Battery Operated
Ionizing Air Gun*

Neutralizer[®] AC Model 6500

Features

- Rechargeable lithium Ion Battery
- High volume air flow
- Light weight and ergonomic

Specifications

Weight	17.6 oz (520 g)
Gas	Clean, dry, compressed air
Pressure	Max: 50 psig (3.5 bar)
Temperature	Max: 104°F (40°C)
Line Connection	1/4" NPT, female
Sound Power Level	98 dBA ±0.35 dBA within 0.66 confidence interval at 50 psig
Vibration	0.021 m/s ² ±0.004 m/s ² within 0.66 confidence interval at 50 psig
Ozone Level	less than 0.01 ppm
Outlet Air Pressure	Pressure relief in gun body, complies with OSHA requirements

High Volume Ionizing Air Gun

The Model 6500 Neutralizer[®] AC incorporates the efficiency and power of an air amplifier with the proven technology of corona ionization to produce a highly effective static eliminating blow-off gun. In addition, it offers a lightweight well-balanced gun powered by an internal, rechargeable, lithium ion battery and a replaceable emitter pin to keep the Neutralizer[®] AC performing like new.
