

StaticCARE™ Antistatic Hand Lotion

HL Series

StaticCARE™ Antistatic Hand lotion is specially created for use by the electronics industry.

This fast absorbing, non-greasy ESD hand lotion enhances the contact between a persons skin and grounding devices such as wrist straps and heel grounders, specifically for those with dry skin. It is free of glycerin, mineral oils, silicones, and lanolin which will keep your work area ESD safe and free from contamination.

Directions

Apply a small amount of StaticCARE™ lotion with hands to desired areas where grounding devices are used. Rub evenly into skin until absorbed. Any excess lotion may be removed with a towel. To remove from skin completely, warm water and a mild soap may be used.

Storage

StaticCARE™ lotion should be stored at room temperature (72°F, 22°C) sealed in its original container.

Disclaimers

StaticCARE™ lotion is not recommended for use on the face. Avoid eye contact and flush immediately with water if contact occurs.

Applications:

Dry skin is an insulator and can affect the effectiveness of ESD grounding devices. ESD lotion is specially designed to improve the contact between an individual and their grounding device.
