

### GL4500 Series ESD Inspection Gloves - Uncoated

**ESD inspection gloves are worn when handling ESD susceptible items when cleanliness is a priority.** Transforming Technologies ESD inspection gloves are designed to be worn when handling ESD susceptible items. Uncoated nylon construction and a finished rolled cuff allows for maximum breathability and comfort. The ESD inspection gloves may be laundered for repeated use. Sold in packs of 12 pairs.

#### ESD Properties:

They are made with a dissipative nylon to reduce charge generation. The gloves have a resistance of  $10^6$ – $10^8$  and ESD properties are not effected by laundering.

#### Clean Applications:

The GL4500 series are ideal for applications that require clean assembly. They reduce the transfer of fingerprints, oils, and other skin contaminants when handling sensitive items. The gloves are made with a seamless, fine gauge knit nylon which results in a low-linting properties.

### Features

- ESD gloves are to be worn when handling static sensitive items
- Uncoated for maximum breathability and comfort
- Fine gauge knit nylon and carbon
- Low linting
- Finished rolled cuff
- Reusable and Washable

### GL4500 ESD Inspection Gloves

#### Inspection Glove Sizing

	Cuff	Cuff to Tip
XS	2.8"	8"
S	2.8"	8"
M	2.8"	8"
L	3"	8.5"
XL	3"	8.75"
2XL	3"	9"

Carbon 5.1%  
Polyamide 10%  
Elastic 10.4%  
Nylon 74.5%

#### Specifications:

Fabric: Nylon and Conductive Carbon  
Cuff: Finished Rolled Cuff  
Resistance:  $10^6$ - $10^8$  per ANSI/ESD SP15.1  
Composition: Carbon 5.1%  
Polyamide 10 %  
Elastic 10.4%  
Nylon:74.5%

#### Part Numbers:

Item No.	Size	Length
GL4501	X-Small	8"
GL4502	Small	8"
GL4503	Medium	8"
GL4504	Large	8.5"
GL4505	X-Large	8.75"
GL4506	2X-Large	9"
